Subject: Vruwink

As a small business owner myself, I have been directly affected by Wal-Mart's Tactics. For this reason, I feel that it is my responsibility to speak out against a Banking move by Walmart. I hope that the FDIC understands the message Walmart is trying to portray, and DENY's Walmart's request to enter the banking industry. This is a Dangerous Concentration of Power: A bank owned by the largest corporation in the world would create a dangerous concentration of commercial and financial power. Please join me along with businesses across the country in stopping this from happening!
